

Feature Document (MVP) — Golf Charity Subscription Platform

1. Authentication System

Goal

- Allow users and admins to securely access the platform.

User Features

- Signup (email + password)
- Login / Logout
- JWT-based authentication

Admin Features

- Admin login (role-based access)

Functional Rules

- Email must be unique
- Password must be hashed
- Token required for protected routes

2. Subscription System (MVP Simplified)

Goal

- Control access to platform features.

User Features

- Choose plan (monthly/yearly — UI only for MVP)
- Activate subscription (dummy button)

Functional Rules

- isSubscribed = true after activation
- Store start date and expiry date

MVP Limitation

- No real payment integration (Stripe skipped)

3. Charity System

Goal

- Allow users to support a charity.

User Features

- Select a charity during onboarding
- Set contribution % (min 10%)

Admin Features

- Add / edit / delete charities

Functional Rules

- Minimum contribution = 10%
- One active charity per user

4. Score Management System

Goal

- Store and manage user golf scores.

User Features

- Add score (1–45)
- Add date
- View last 5 scores

Functional Rules

- Max 5 scores stored
- New score removes oldest
- Sorted: latest first

5. Draw System (Core Feature)

Goal

- Generate monthly results and determine winners.

Admin Features

- Generate draw (random)
- Publish results

Functional Rules

- Generate 5 numbers (1–45)
- Compare with user scores
- Match types: 3, 4, 5

MVP Limitation

- No algorithm-based draw (only random)

6. Winner System

Goal

- Track winners and verification process.

User Features

- View winnings
- Upload proof (optional in MVP)

Admin Features

- View winners list
- Update status: Pending, Approved, Paid

7. User Dashboard

Goal

- Provide user overview.

Features

- Subscription status
- Last 5 scores
- Selected charity
- Draw participation
- Winnings summary

8. Admin Dashboard

Goal

- Control system operations.

Features

- Manage users
- Manage charities
- Run draw
- View winners

9. Data Validation Rules

Rules

- Score must be between 1–45
- Max 5 scores per user
- Only subscribed users can enter scores and participate in draw

10. Access Control

Permissions

- Public: View landing page, Signup/Login
- User: Enter scores
- Admin: Run draw, Manage users

11. Tech Stack (MVP)

Stack

- Frontend: Next.js / React
- Backend: Node.js + Express
- Database: Supabase (PostgreSQL)
- Auth: JWT

12. MVP Scope Summary

Included

- Auth

- Subscription (dummy)
- Score system
- Charity selection
- Draw system (random)
- Basic dashboards

Excluded

- Stripe payments
- Email notifications
- Advanced analytics
- Algorithm-based draw
